About DME's International Women's Day Video: The video is meant to capture faculty's and staff's opinions on International Women's Day 2019. As United Nations, (<http://www.un.org/en/events/womensday/>): This year's theme is "Think equal, build smart, innovate for change". The theme will focus on innovative ways in which we can advance gender equality and the empowerment of women, particularly in the areas of social protection systems, access to public services and sustainable infrastructure. Thus faculty and staff are asked questions along these 3 categories: #Think equal, #Build smart and #Innovate for change

Other Committees Involved in the Event:

1. Hospitality Team: Responsible for hospitality of dignitaries, faculty and staff
2. Spectrum: DME Arts Society students responsible for the placards used in the video
3. DME TV: Responsible for shooting and processing of the video
4. Support Staff: Admin team and pantry staff responsible for logistical support
5. IT Team: Responsible for A/V equipment and other IT requirements
