Cyberthon - 2019

Technology is a boon and a bane simultaneously. While it has converted the world into a global village, careful usage is advantageous while unaware usage is leading to severe impacts and the worst hit are the children who are exposed to it without proper knowledge.

Cyber bullying is the harassment or bullying executed through digital devices like computers, laptops, smartphones, and tablets. The platforms where cyber bullying can occur include social media, chat rooms, and gaming platforms where people can view and participate in the sharing of content. The different types of cyber bullying involve causing humiliation through hateful comments on online platforms/apps, or through SMS or messaging. It comprises posting, sending or sharing negative, nasty or false information about another individual for causing humiliation and character assassination. This calls for an immediate action to make this generation aware of it and how to handle it. Cyber security refers to the body of technologies, processes, and practices designed to protect networks, devices, programs, and data from attack, damage, or unauthorized access.

DME Cyberthon - 2019 is an awareness drive which will educate the students from class VIII to XII about cyber security, cyber bullying and the ways to handle it. This will be conducted at the school premises where a team from DME will visit and guide the students about this alarming issue.

Date and time of the event will be as given by the school.
