Awareness session on rights of the girl child

National girl child day is celebrated every year on the 24th of January to create awareness about the rights of the girl child, to remove gender-based bias and education of girl children.

The poster displayed on Rights of Girl Child, Prevention of Female foeticide, Preventing gender-based bias, Education of the girl child, Child marriage, various schemes for the girl child, good and bad touch and empowering the girl child. The students of DME explained the posters to the children of Hoshiyarpur Village and all the illiterate strata of society to raise awareness. The awareness camp was organised keeping in mind the government scheme of “Beti Bachao Beti Padhao”.

They also sensitised the participants on the ill effects of dowry, hazards of domestic violence and child labour and encouraged protecting the girl child.

It is to increase awareness among students about the inequalities faced by the girl child in society. Inequality about girl children is a big problem that includes inequality in education, nutrition, legal rights, medical care, protection, honour, child marriages, child abuse and many more. It enhances the meaningful contribution of the girls in decision-making processes through the active support of the parents and other community members.

Free health check-up camp

The Health Camp conducted by DME is an initiative to integrate awareness of community health and insights obtained from the community through health surveys.

Health is more than physical well-being or the absence of disease, illness, or injury. It is a range of factors –economic, social, political, ecological, and material; that adds up to healthy, high-quality lives for individuals and communities. Health is influenced by factors such as community attitudes, the community environment (physical, social, political, and economic), and history.

Community Connect Society, in association with Fortis Hospital, Noida, on account of World Health Day, organised a Free Mega Health Check-Up Camp in our College campus (Nelson Mandela Auditorium & Reception Area) in 2017 from 10.30 am to 2.30 pm—free check-up services such as BP, RBS, Height, Weight, BMD and ECG. Free consultation was available in Orthopedics, General Physician, Gynecology, Dentistry, Psychologist and Dietician.

Numerous Posters were also put up for awareness about cancer and its symptoms.

Clean Campus Drive

The student welfare society organised “Swachh Parisar Abhiyan” on 18th August 2017, from 3:00-4:00 p.m. under the government. scheme of “Swachhta Pakhwada”. The event was organised on world cleanup day, celebrated annually and observed active participation from the students and faculties of all departments. Posters made by the students were displayed on and around the campus to create awareness about cleanliness.

A cleanliness drive was carried out within campus and outside with a focus on picking up trash, especially single-use plastic (sup), e.g., chips packets, small pouches, plastic sticks for balloons, plastic flags, candy sticks, ice-cream sticks, polystyrene (thermocool). The on-field experience helped sensitise the students regarding managing single-use plastic and eventually reducing its use.

Students actively participated and conducted ‘Nukkad Nataks’ to create awareness about cleanliness issues and the need for clean and hygienic surroundings.

Food Donation Drive on World Hunger Day

Community Connect Cell, DME organised a 'Food Donation Drive' to commemorate 'World Hunger Day'. The drive was organised for homeless people on the streets. Food was distributed among needy children and people. A couple of people were given the meals at the market area, and then the team divided themselves and proceeded towards the nearby slum area.

All the meals and drinking water were distributed to homeless families around these areas. Most of them were touched by the gesture and congratulated all the team members for the good deed. It was a wonderful experience for everyone, and many experienced heart-handling moments on seeing the joy on the little children's faces when they were being given their meal. All the students gathered back at 2:00 pm near the college, briefly discussed the day's experience, and dispersed to their respective homes with hearts filled with the 'Joy of Giving'.

Tree plantation Drive

Students of DME participated with great zeal and enthusiasm in the mass tree plantation drive on the occasion of global tree plantation day, celebrated annually on 21st March 2017 under the government scheme of National Afforestation Programme (NAP) scheme and national mission for a Green India (GIM).

The college collected 80 saplings from the government nursery. The staff and students of various classes planted saplings in the school's garden to raise awareness and consciousness about the environment among the masses. The drive was a huge success, empowering students with substantial knowledge. Tree plantation is not just something that should be done; it is a necessity, the urgent need of the hour. Planting trees is especially important to protect our environment against air pollution and global warming.

Blood donation camp in collaboration with the National Thalassemia Welfare Society

A blood donation camp was organised on 3rd October 2017 at Delhi Metropolitan Education in collaboration with the National Thalassemia Welfare Society and Dr Ram Manohar Lohia Hospital, Delhi, under the scheme ‘Raktdaan Amrit Mahotsav’. Director General Mr Justice Bhanwar Singh and Vice Chairman Mr Aman Sahni's presence motivated students to donate blood for social causes. Director Dr Ravi Kant Swami was a source of great encouragement by being the first donor.

The camp was organised on “National Voluntary Blood Donation Day”, celebrated annually on 1st October. The auditorium was abuzz with young students, faculty members and senior dignitaries having conversations with each other, happy to be able to play their part in lending a helping hand to people suffering from thalassemia. Thalassemia is a blood disorder passed down through families (inherited) in which the body makes an abnormal form or inadequate amount of haemoglobin. Haemoglobin is the protein in red blood cells that carries oxygen. The disorder destroys many red blood cells, leading to anaemia.

The Community Connect Cell of DME coordinated the program. Much participation was seen from all three departments Law, BBA and BJMC. A record-breaking 110 people turned up, from which 72 donors donated their blood. Before the blood collection, there was a blood sample collection to state whether or not a person is fit to donate their blood by checking their haemoglobin levels and blood group. Blood donors were provided with bananas, biscuits and fruit to re-energize them.

Diwali Celebration with Community

Diwali celebrates new beginnings and the triumph of good over evil and light over darkness. While we celebrate Diwali with great zeal, we must remember those who live in streets, orphanages and nursing homes and cannot praise the festival due to a lack of resources. If we can smile at their faces, our celebrations are multiplied.

DME community connect society celebrated the event 'Diwali for all', the auspicious festival of Diwali, with the students of Satya public school located at sector 51 near Hoshiarpur, Noida. It was a fun-filled celebration where the students of DME interacted with the children, followed by dance performances from the students of the dance society of DME, after which the school children were given painting, singing and dancing activities from 4th to 13 October, 2017.

DME art society also organised a fun-filled art activity for students (classes 1-4). The schoolchildren were filled with enthusiasm and joy. It was very encouraging to see students' enthusiastic participation in the same.

Later on, gifts were handed over to the children. DME gifted the microphone system to the school. They also arranged snacks for the students and faculty of DME. The photography society of DME captured those fun-filled moments spent with the school children. The event concluded on a happy note and maintained the zeal of the festival.

Students were accompanied by Ms Manmeet Kaur Gupta, Ms Sanchita Chakrabarti, Ms Divya Rastogi and Ms Ashima.

Book Donation Drive

There are numerous children in our country who, despite having the will to study, cannot do so due to poverty. Their dreams and aspirations are crushed by their inability to buy books, so they cannot develop and prosper.

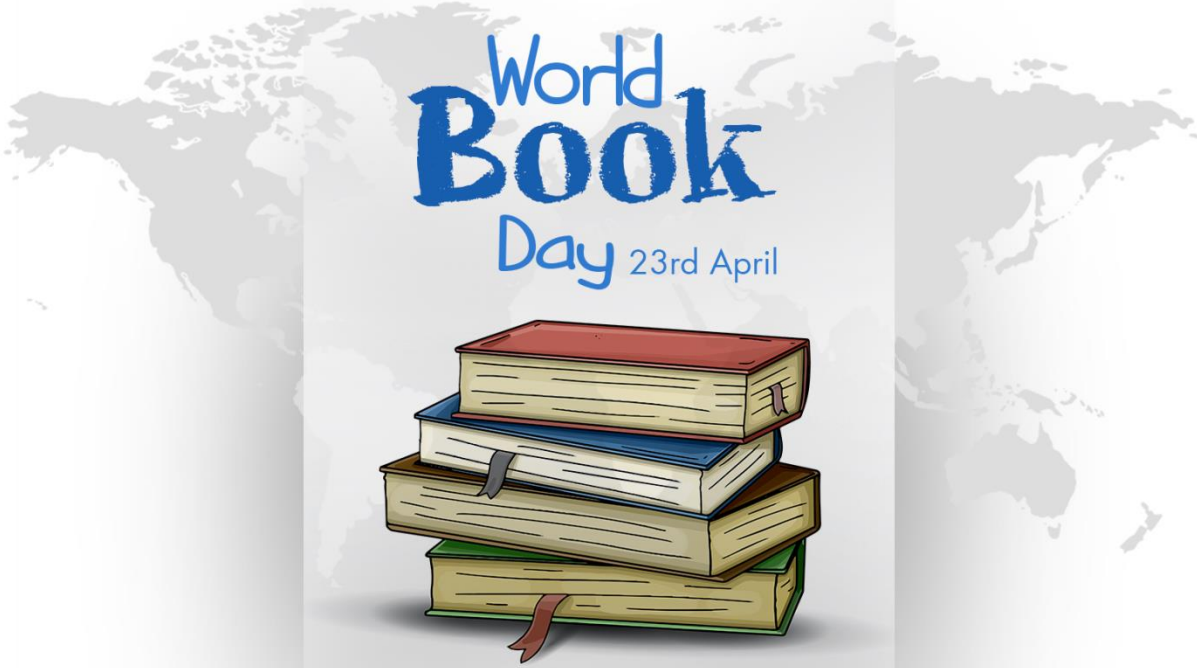

Realising this, the community connect cell, DME, organised a book donation drive in collaboration with the Niveda foundation under the government scheme of “Sarva Shiksha Abhiyan (SSA)” on 21st April 2017 on the occasion of “World Book Day”, celebrated annually across the globe under the name “used but useful” to encourage students to donate old school books. Owing to the vast student population of DME and the participation and enthusiasm of every student, the event was destined to be a success. Though useless for us, each of these books can bring winds of wisdom, joy and knowledge to someone who needs it. The books lying around unread in our cupboards for years would mean the world to someone.

A book can change the course of history, and together, the readers we donate can change the future of our nation's children and the end of our country.
