## Sustainable Decor Creation for Christmas in Collaboration with SPECTRUM (23.12.2022)

Tatva, Eco club of DME in collaboration with Spectrum – The Art Society on 23<sup>rd</sup> of December, 2022 decorated the notice boards and faculty rooms, on the occasion of Christmas & New Year with creative decor made from waste materials. Recycling and reusing the valuable waste material can result in development of usable products. Rather than putting these waste materials into the landfills, various innovative and creative ideas can be put together to being something new and useful.

This event would not have been possible without the supervision of our Cultural Cell head, Navjot Ma'am and without the guidance of our Faculty Convenors, Abhishek Sir and Bhoomika Ma'am.

**Human Chain to commemorate National Energy Conservation Day (14.12.2022)**

Tatva, Eco club of DME on 14th of December, 2022 formed a Human Chain to commemorate National Energy Conservation Day. Faculty members along with students came together in this event to raise awareness about the importance of energy, renewable and non-renewable resources and their conservation.

Prior to this the members of Eco Club went from class to class in order to call the students to join the event and at the same time the faculty convenors reached out to faculty members to make this event a huge success. We received good participation from all departments.

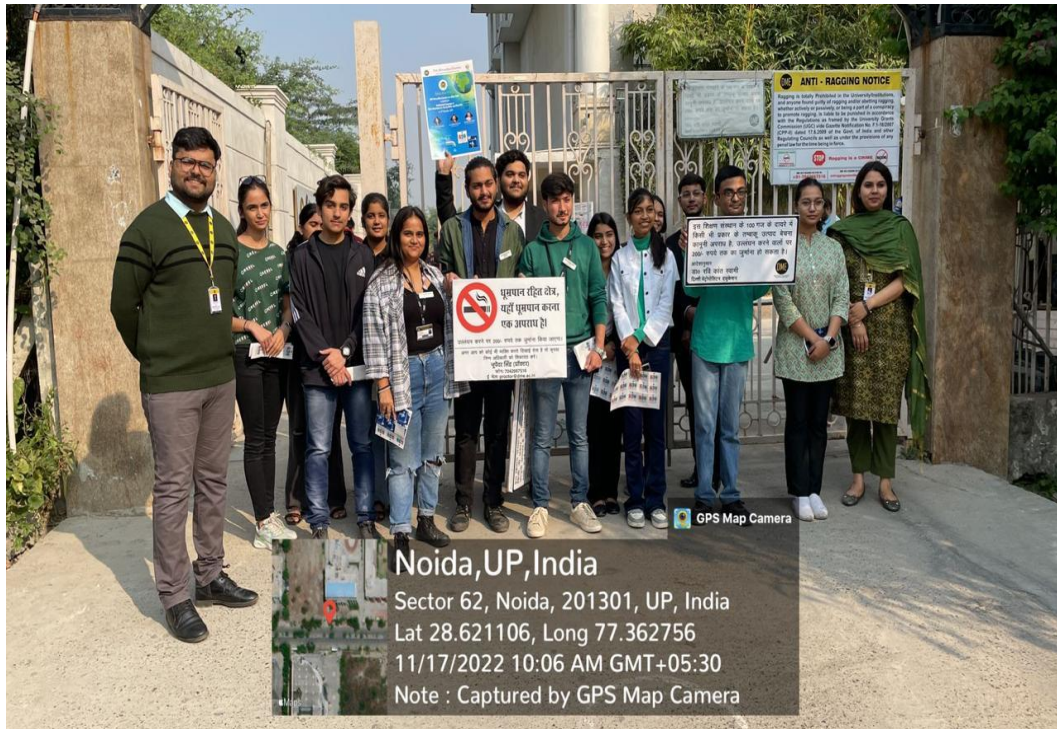

This event would not have been possible without the supervision of our Cultural Cell head, Navjot Maam and without the guidance of our Faculty Convenors, Abhishek Sir and Bhoomika Maam.

Institutional Awareness Campaign (18.11.2022)

Tatva, Eco club of DME conducted an institutional awareness programme. The campaign was directed towards conserving natural resources like water and electricity. The event began at 9 am wherein the members of Eco club along with the faculty convenors, visited class to class spreading awareness about the importance of conserving natural resources like water and electricity. The stickers regarding the same were pasted in the classes and water taps.

Two teams were divided to cover all the classes of BAJMC, BBA and Law. The members also visited the staff rooms and at the office of Ms. Rashmi Nagpal, Dean Law School. She emphasized on the regular checks over the taps and lights.

Respected General Director Sir, Honorable Justice Bhavar Singh and Director Sir, Mr. Ravi Kant Swami also appreciated the campaign. The event would not have been possible without the support of our faculty convenors Ms. Bhoomika Ahuja and Mr. Abhishek Dwivedy and our cultural cell head Ms. Navjot Suri.

**DME ECO CLUB PRESENTS**  
GROUP DISCUSSION COMPETITION  
On the occasion of Environment Day 2022,  
Eco Club is organising a virtual Group Discussion Competition on 5th June 2022.  
TOPIC: STUBBLE BURNING: REALIZING THE PROBLEM AND FINDING SUSTAINABLE SOLUTIONS.  
Exciting cash prizes  
1st winner - ₹1000  
2nd winner - ₹700  
3rd winner - ₹500  
For any query, contact  
Gaurang singh bhati- 9116911681  
Deepanshi Singh- 7838922333

Witnessing your association with the #SaveSoil Campaign and your tireless efforts towards environment conservation, DME Eco Club cordially invites you to speak at the Webinar on the topic "Environment Conservation". We, at DME, shall be highly fortunate to get some insights into the world of environment preservation and soil conservation through your tales of pan- India travels.

Moreover, it would be our honour for you to be the esteemed Judge of the Group Discussion Competition that would follow the aforementioned Webinar. Your skill and expertise both as a Lawyer and an Environmentalist shall prove to be the best eye to gauge the talent of the participants.

On 5th June 2022, DME Eco Club organized a Group Discussion Competition on World Environment Day. Following are the winners:

- Shubham Sharma (B.A.LLB 4 C)
- Shaurya Srivastava (BA.LLB B)
- Ishita Rohatgi (BA.LLB. A)

## Eco Club Awareness Campaign (07.03.2022)

On 7th March 2022, DME eco club conducted its first offline event after the pandemic for the students of DME. For the event, eco club organized a donation drive and asked students to contribute used clothes, plastic bottles, old books, used stationary etc. For the purpose of recycling them into decorative items and further donating them to old age houses or to animal shelter.

The main objective was to turn waste products into useful things and let the students know that things which might not be useful for them can still be of use to someone else. Posters carrying information were made and were circulated both online and offline, and announcements were made in offline classes. Although we received less donations, the whole team recycled them into useful items like flower pots and other decorative pieces, and the clothes were sorted out and prepared to be donated further.

On the day of the event eco club started off by planting a tree with our staff convener ma'am Navjot Suri to remark the start of eco club after the pandemic. Further, we planted saplings in our handmade flower pots and kept them in various places across the college campus.

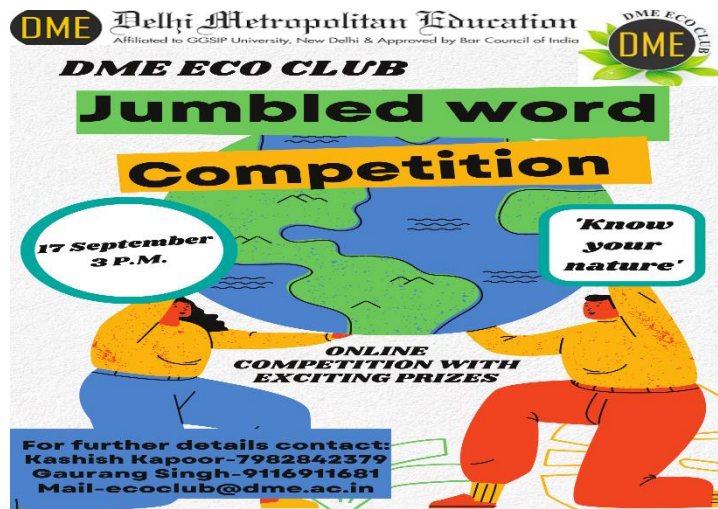

Afterwards Eco club went to an old age home to donate the clothes. Clothes that were not in wearable condition were given to the animal shelter.

**Jumbled Word Competition (17.09.2021)**

On 17 th September 2021, DME Eco Club organised an online jumbled word competition for the students of DME. The main objective of the competition was to spread environmental awareness. Other than this, the competition was organised with the aim of indulging students in a fun environment related activity and also creating a platform for the students to check how much they know about mother-nature.

We created posters which were posted on the official DME Instagram handle and the information was also circulated through WhatsApp. This helped us in getting higher number of participants.

The competition was hosted by Kashish Kapoor and Gaurang Singh Bhati, the conveners of DME Eco club, under the able guidance of Navjot Suri ma'am. The event was a success because of the knowledgeable and competitive participants. The competition was conducted in two rounds, namely, jumbled words and match the following. Post the process, Mrs. Navjot Suri, faculty convenor of DME Eco Club addressed the students and announced the result of the competition. The winners were also awarded with vouchers.

The event turned out to be a great success as many students turned up to participate in the event. The parent judge of the competition was Mrs. Navjot Suri, Assistant Professor and faculty convenor of DME ECO CLUB. The event was wonderfully and enthusiastically hosted by Kashish Kapoor (Student Convener of DME ECO CLUB) and Vishal Khatri. The participants participated teams in two rounds, Round 1 was ideas from a product which was shown to them and Round 2 was Quiz on Recycle, Reuse, Reduce. Nikkitha Ramalingam and Prakhar Kumar Londhe stood first, Arpita and Apoorva chandratood second and Himanshi and Mana secured third position.

The winners were awarded with e-certificates and exciting vouchers. The event was concluded by announcing the result and a request made to students for saving energy by switching of Televisions and Air Conditioner by faculty convenor Mrs. Navjot Suri In the end, the student conveners concluded the session by extending the vote of thanks to the faculty conveners, Mrs. Navjot Suri.

## Essay Writing Competition on “Elimination of Plastic” (30.04.2021)

On 30/04/2021, DME Eco Club organized an Essay writing competition. The theme followed for the competition was “Elimination of Plastic”. The basic aim behind this event was to create awareness amongst students regarding the harmful effects of plastics on our environment. This event received great applaud by students as well as faculties. A lot of essays were received. Out of which, Gaurang Singh Bhati won the first prize for writing an essay on the topic “Plastic- A low priced poison for the ecosystem”.

**Earth day Celebration (22.04.2021)**

GURU GOBIND SINGH  
INDRAPRASTHA UNIVERSITY

On 22nd April 2021, DME Eco Club organized an online meeting to inform the members of Eco Club about an event on the account of Earth Day. The main agenda of the session was to inform the member who want to participate and make an initiative towards the Environment. The online meeting was hosted by Kashish Kapoor and Vishal Khatri, the conveners of DME Eco Club. We introduced the members to the basic idea that "what is the need of environment and why we need to protect, save it." Also we interacted with them to conduct an event on occasion of Earth Day.

The meeting was joined by the member of eco club. The students were asked to make a awareness video on the topic "ELIMINATING USE OF PLASTIC." Many students took participation and via that video we delivered the message how we can save our mother earth by eliminating use of plastic and also in what ways we can eliminate them in our lives.

Post the process, Mrs Navjot Suri, faculty convenor of DME Eco Club address the students and informed in better way the importance of Earth to us.

The student conveners of the society briefed the students throughout the meeting, assisting them with the event. The students came with enthusiasm and submitted their videos on the same. Lastly, Kashish Kapoor convenor of Eco club merged and edited the videos of the participant and submitted to faculty convenor, Mrs. Navjot Suri. The video was posted on official page of DME on 22nd April 2021. The video was meaningful and delivering self awareness message for the replacing the plastic with eco-friendly items

## Online Poster Making Competition on 'Benefits of Lockdown to the environment'(28.09.2020)

Whether one wants to discover their talent or polish it, DME has always provided a significant platform. Even in the tough times of covid-19 during the month of June, when the whole nation was locked inside their homes, the Eco Club of DME has continued to do what we do the best and showed the world that students at DME never stop. Students of DME Eco Club continued to motivate people to stay at home and safely work towards the celebration of World Environment Day on 5th June,2020 by engaging in activities which will reach out to influence, engage their parents and neighbourhood communities to promote sound environmental behaviour.

Heal the world, make it a better place, for you and for me and the entire human race. Make it a better place for you and for me. World Environment Day is one of the most important day and it is observed on 5th June annually. It is celebrated worldwide to spread awareness regarding environmental protection. When the world is living with current Global Pandemic COVID 19 this demonstrates the interdependence of humans and the webs of life, in which they exist. The members of DME Eco Club brought a small initiative to give a glimpse of the changing environmental conditions, the ways in which small effective steps can be taken to protect and nurture the environment through a video which is available on DME official Instagram and Facebook The members of DME Eco Club urged all to celebrate biodiversity and protect the environment.

**HEALTHY  
ENVIRONMENT**

The poster features a cartoon globe character wearing a green cap and holding a recycling symbol. Below it is a recycling bin. The text is arranged in a vertical layout with a central logo for DME Eco Club. At the bottom, there is a cartoon character made of a recycling symbol with the words 'REDUCE', 'REUSE', and 'RECYCLE' written on its body.

With the growing increase in wastes in our society from households to industrial wastes, we now require a very innovative approach to get rid of them. Recycling and reusing valuable waste material can result in the development of fantastic and usable products. Rather than putting these waste materials into landfills, various innovative and creative ideas can be put together to bring something new and useful.

DME Eco Club organized the Best out of waste Competition with the name REGARD BEFORE YOU DISCARD through the virtual platform at this growing technological age.

The main objective of this event was to bring such innovative ideas to students and to help them think themselves on such ways of reusing everyday materials that will not only reduce the waste but provide them with useful household products. This idea was indeed very useful and helpful in creating environment consciousness that is the need of the hour.

The First position was secured by Shailja Rawat (BA.LLB 2nd Year) and the second position was backed up by Abhilyasha Tyagi (BA.JMC)

The activity was carried out under the guidance of Ms. Navjot Suri, Faculty coordinator along with student convenors Saurabh Singh and Riya Mittal and Core Members, Vishal Khatri, and Kashish Kapoor.

Online celebration of World Environment day (05.06.2020)

The environment is the entire universe and the living world, it not only includes humans beings but also all animals, trees, plants, natural vegetation etc.

A clean environment is very important to live a peaceful and healthy life but our environment is getting destroyed day by day.

World environment day is celebrated on June 5 every year and this day is commemorated to raise awareness about environmental issues, the increasingly deteriorating conditions, climate change etc. This day acts as a reminder to people to be more considerate and aware of the Earth's existing conditions, in terms of the environment.

World Environment Day (WED) is celebrated annually on 5 June and encourages awareness and action for the protection of the environment. On World Environment Day, people take action to spread awareness about the environment and motivate others to do the same, hoping to create a better future. As our society modernizes, our environment gets affected due to the adoption of technologies and resources that are quite harmful to the environment. People have a long way to go, in terms of advocating biodegradable resources and adopting the same. Therefore, to keep up this commitment, DME Eco Club students celebrated World Environment Online due to the pandemic on 05.06.2020, through online meeting.

**Saving Electricity and Water Drive (17.01.2020)**

Water conservation has become essential in every part of the world, even in regions where water appears to be enough. It is the most practical and environment-friendly approach to lessen our need for water. Similarly, In our homes, we rely on electricity to power our lights, appliances, and electronics. Many of us also use electricity to provide our homes with hot water, heat, and air conditioning. As we use more electricity in our homes, our electric bills rise. Thus, to educate peers on this, the students members of DME Eco Club, on 17.01.2020 organised a "Save Electricity & Water Drive". This was run throughout the campus, whereby the students pasted stickers near switch boards and water coolers, washroom taps and informed other students to switch off lights when not in use and close unnecessarily running taps.

**Management Unleashed - Pot Decoration & Collage Making on  
Environment Issues (12.09.2019)**

On 12th September, 2019 DME Management School in collaboration with DME Eco club organized Management Unleashed Event for BBA Students. The event was open for participation of 1st, 2nd and 3rd year students. It was a fun-filled occasion with Pot Decoration and Collage Making as two main activities. The aim of the event was to propagate the idea of Sustainable Development

The event started around 11:30 am a time duration 1 hour was provided for both the activities after which the students were requested to present their projects before the honorable judges. The event witnessed huge participation with more than 250 students enthusiastically participating in both events. All the Faculty and the students were present throughout the event.

For Collage making Activity, MsShanu Jain (Assistant Professor) and Ms. Roli Wadhwa (Assistant Professor) were event coordinators Students were given topics on the spot where they were required to make a Collage on the topic of their choice. The topics were "Reduce, Reuse, Recycle", "Save earth" and "Sustainable agriculture" and "Prevention and protection from pollution".

The 1st prize winners of collage making were Ms. Riya Rao, Ms. Manushi Nautiyal and Ms. Pranti Pal, BBA 1st Year Students.

Ms Laxmi Rajput (Assistant Professor) and Dr. Pooja Sharma (Assistant Professor) were

Screening of documentary film on 'Drowning in plastic' (03.09.2019)

For the Professional Skill Development Activity, the report of which are annexed herewith, the students were shown a documentary on the effects of Plastic Pollution, "India: Drowning in Plastic" wherein Founder's Valley showcases the experience of German entrepreneur Fridtjof Detzner who is on his journey to India - a country described in the documentary as one which is "drowning in plastic waste". In the abovementioned documentary, Fridtjof Detzner meets certain entrepreneurs involved in production of eco-friendly substitutes to plastic and who want to tackle the country's pollution crisis and fight for a cleaner India. The documentary captures his perspective on the issue and shows how grim the situation is and attempts to evoke in us a sense of responsibility towards environment, the need to shun away the consumerist 'use and throw' culture which has become our lifestyle, thus aggravating the problem of rapid acceleration in waste generation, at a pace much higher than the assimilative or absorptive capacity of our environment.

This activity was held in collaboration with the Centre for Enviro-legal Studies, DME. On 3rd September, 2019, the Centre for Enviro-legal Studies (CELS) screened the documentary film on plastic pollution titled "Drowning in Plastics" at Nelson Mandela Auditorium, DME. The same was attended by the batch of B.A. LL.B. as well as B.B.A. LL.B. (2017-2022), as a part of their PSDA. The screening of the documentary was followed by an interactive session conducted by some of the students of DME (final year batch) wherein the students through the means of a Power Point presentation (PPT) explained the core issues relating to the environmental hazard posed by the increased use of plastic ever since the discovery of the synthetic polymer. After having watched the documentary, the students were supposed to submit a short review of the documentary commenting upon the menace of Plastic Pollution, identifying the challenges pertaining to the use of plastic and exploring measures to curb the devastating problem. Through this exercise the students were asked to identify the issues highlighted in the documentary pertaining to the problem of 'Plastic Pollution', the causes for the same and the possible remedial measures which should be adopted to deal with the menace of plastic pollution.

The ill-effects of the excessive use of plastic, especially single use plastic, are well known. Be it our food packaging, disposable cups or straws, tonnes and tonnes of plastic

GURU GOBIND SINGH  
INDRAPRASTHA UNIVERSITY

waste is being generated every minute and piles of this non-biodegradable trash often ends up in the garbage dumps which is frequented by the stray animals and the same waste is ingested by these animals leading to severe health complications for them and even death. With there being proposals to ban 'single use' plastic all over the country, it is pertinent that the issue is taken up for analysis and effective substitutes to plastic, which is considered to be a 'necessary evil' because of the attributes of utility and convenience attached to it, are found. This activity was an initiative in the same direction so that habits discouraging use of plastic and encouraging the use of its substitutes, are promoted among all and to involve the students in creating awareness about the same. Reports submitted by the students reflected the same concerns as explained above. Copies of some of these reports are attached with this document.

**Pollution Prevention Drive (28.07.2017)**

DME Eco Club organized a Pollution Prevention Drive on 28/07/20217 to create awareness among the students and faculties. The aim behind this drive was to give out information regarding ways in which pollution can be prevented. The students engaged themselves in groups to collect ideas on how pollution can be prevented. A lot of interesting ideas came up like drive less, choosing efficient fuels options, using electric and battery powered machines etc. Overall this was a successful drive wherein student and faculty participation was overwhelming.

## Eco Club Awareness Campaign- Drug Awareness (30.10.2017)

On 30<sup>th</sup> October, 2991017, a Drug Awareness Campaign was conducted by Eco Club, seeking to lessen the demand for illicit street drugs through education and prevention programs. The basic objective of the campaign was to apprise students with the knowledge about the dangers of abused substances and the process of addiction, and to communicate with students about the dangers of drug abuse. The students gathered around in college amphitheatre area in order to display posters, share slogans & have a talk about the same. The program concluded with distribution of ribbons to display solidarity against drug abuse. This event was lead by the core team of 9 members, headed by Kashish Kapoor & Riya Mittal. Overall, this campaign was a huge success by the efforts and hardwork of all students and team members.

## Debate Competition (05.06.2018)

A slogan on  
Water is a slogan  
on life.

Venue: Seminar Hall

Water has become a highly necessary part of human being's existence on Earth. Thus, the importance of water can be compared to the importance of air. All living organisms whether it is human, animals, or plants. Everyone is completely depending on fresh and potable water. Hence on 05/06/2018, Eco Club organized a Debate Competition on save water. The topic of the Debate was the impact of water on environment. A lot of students participated in the event. The Eco Club Faculty convener was the judge of the event. The event was held in the seminar hall. Overall with the collaboration of students and faculties this event was successful.
