### Youth Involvement in Environment Consciousness

Mr. Gaurang Singh Bhati, student of Delhi Metropolitan Education, President of Tatva – DME Eco Club inspired the cohort by his youthful energy in making this environment a healthier place to breathe in. He talked about seven ways that young people can help the environment, and he came up with the idea of only buying what you need. He is indeed an empowering youth who believes in owning the responsibility of our environment. If you love watching #TEDx Talks like this one, become ...

TEDx DME Noida was held on 14<sup>th</sup> January 2023 at the NM auditorium. The event started with the preview of prior TEDx events thereafter a short film on the theme of *Climate Change* was showcased.

The programme started by the host MsPriyanshi Jain, Assistant Professor welcoming the guests for the day. This was followed by a welcome address by Prof. (Dr.) Poorva Ranjan and felicitation of the guests – Ms Varsha Das, Mr Vaibhav Gupta, Mr Aniket Gupta and Mr Ramveer Tanwar.

Gaurang Singh Bhati, President of Tatva – DME Eco Club Society, was also one of the speaker. His topic was “youth involvement in environmental conscience.” He attended the wildlife census when he was 11 years old and was inspired to work for the environment by his father. In addition, he talked about seven ways that young people can help the environment, and he came up with the idea of only buying what you need.

This was followed by vote of thanks presented by the anchor of the event, MsPriyanshi Jain

**Campaign**

**"REUSE AND RECYCLE EVERY DAY,  
INSTEAD OF THROWING PAPER AND PLASTIC AWAY"**

DME ECO Club is organising an awareness campaign on 25th February, 2022 with the aim to spread awareness about recycling used items and reusing old things for the betterment of our society. To be a part of this campaign you can drop your old books, pens, clothes, used bottle caps etc. In the boxes kept near the reception area from 11 February to 20 February.

FOR ANY QUERY FEEL FREE TO CONTACT:  
Eko Gupta- 998864378  
Chourang Singh- 910911821  
or email at [ecoclub@dmee.ac.in](mailto:ecoclub@dmee.ac.in)

This was our first offline event after lockdown, and the whole team was super excited which could be seen in their work. We collected recyclable and reusable things from the college by keeping donation boxes in the reception area. Further our club members used the plastic bottles to make flower pots which are kept in the garden near gate number 2 of our college. We also used the plastic caps to make a decorative piece representing the three R's and waste paper was used to make paper bags distributed among the shops near college. The reusable things such as clothes and books were then distributed among poor people near the college area.

## Tree Plantation Drive by DME Eco Club in collaboration with BARCLAYS (29.07.2022)

On 29<sup>th</sup> July 2022, DME eco club conducted a plantation drive in collaboration with Barclays. Volunteers were invited through a registration form which was circulated in college groups through WhatsApp. A total of 32 student volunteers were involved in the event from DME, and Barclays had 50 volunteers. Together we managed to plant 70 saplings in the park near our college premises.

The event started with introduction and lots of fun activities were conducted by Ma'am Shanu Jain, which were enjoyed by all the volunteers. These games bonded the volunteers and helped them open up to each other. Saplings were then distributed equally among everyone. With the help of the local workers from the garden the plantation drive went smoothly. Refreshments were distributed after plantation was conducted successfully.

The main objective of the event was to spread awareness among this generation about the need to plant trees and about conservation of our environment. This event was to inspire others to plant trees and help protect and conserve the environment. The event started at 11:30 A.M. and went on till 2:00 P.M. Event ended with a speech from the authority of Barclays and also all the volunteers got to share their experience in the end.

## Tree Plantation Drive by DME Eco Club at Public Park Sec 62 (04.09.2019)

Every man needs the oxygen for their life and Trees are the foremost source of oxygen as well trees helps to reduce the level of carbon dioxide. As we all know that the whole world is facing the problem of global warming and to recover from such problem planting the trees has become one of the most important today's aspects.

With this goal DME Community Connect Society in collaboration with DME Eco club organized Tree Plantation Program on 4th September 2019 at a Public Park in Sector 62 Noida. The students also placed bricks as barricades and each student took the responsibility to nourish and maintain the allocated plant. Eventually, the ground attained a glorious look. The committee decided to proceed with the same inspiration, enthusiasm and zeal to enhance the beauty of the college campus.

All were happy and experience proud after the tree plantation event was finished, because it really feels great to do positive for the nature.

## Visit To Waste To Wonder Park & India Gate (10.10.2019)

GURU GOBIND SINGH  
INDRAPRASTHA UNIVERSITY

On 10th October 2019, DME organized a visit to Waste to Wonder Park and India Gate for second year BBA students. The department undertook this initiative with an objective to make students aware about the environmental hazards and issues. The Waste to Wonder Park is a home to replicas of some of the most visited monuments in the world. But what makes this park unique is the structures that have been created from waste materials like scrap metal, discarded auto parts, procured from landfills of the city. The billboards placed in front of those monuments explained the history of these monuments. The students were also made aware about various kinds of pollutions and how they affect the environment. All the 7 Wonders of the World were beautifully made and displayed in this park, namely, The Taj Mahal, The Eiffel Tower, The Colosseum, The Statue of Liberty, The Leaning Tower of Pisa, The Pyramids of Giza and Christ the Redeemer Statue. The students left no second to miss an opportunity to click photographs in front of their favorite wonder of the world and have fun around the park! After spending an hour in re, the buses took the students to the next destination Management School planned for the visit: The India Gate. The India Gate (originally Triumphed in Paris, and the Gateway of India in Mumbai). A small picnic was held amongst the beautiful parks and fountains inside the India Gate to make the students relax and enjoy the weather. Everybody enjoyed and took photographs with their friends and teachers to make this trip memorable. The All India War Memorial is a war memorial located astride the Rajpath, on the eastern edge of New Delhi. It stands as a memorial to 70,000 soldiers of the British Indian Army who died in between 1914-1921 in the First World War, in France, Flanders, Mesopotamia, Persia and elsewhere in the Near and the Far East, and the Second Anglo-Afghan War. 13,300 servicemen's names, including some soldiers and officers from the United Kingdom, are inscribed on the gate. Designed by Sir Edwin Lutyens, the gate evokes the architectural style of the triumphal arch such as the Arch of Constantine, in Rome. It was an exciting experience for everyone - if one thinks creatively for a good cause, one can create "wonders from waste".

**Faculty Tree Plantation at Public Park Sec 62 (19.10.2019)**

GURU GOBIND SINGH  
INDRAPRASTHA UNIVERSITY

Every man needs the oxygen for their life and Trees are the foremost source of oxygen as well trees helps to reduce the level of carbon dioxide. As we all know that the whole world is facing the problem of global warming and to recover from such problem planting the trees has become one of the most important today's aspects. With this goal DME Eco Club Organized Faculty Tree Plantation Program on 19th December 2019 at a Public Park in Sector 62 Noida. This drive was supervised by Ms. Navjot Suri, Faculty Convener of DME Eco club. The Faculties also placed bricks as barricades and each Faculty took the responsibility to nourish and maintain the allocated plant. Eventually, the ground attained a glorious look. The committee decided to proceed with the same inspiration, enthusiasm and zeal to enhance the beauty of the nature. All faculties were happy and proud after the tree plantation drive got finished, because it really feels great when you do something for the nature.

## Tree Plantation Drive by DME Eco Club at Public Park Sec 62 (04.09.2019)

Students of DME Eco Club participated with great Zeal and Enthusiasm in the Tree Plantation Drive. The students collected 80 saplings from the nursery and the staff and students of various classes planted saplings in a Public Park in Sector 62 to raise awareness and consciousness about environment among the masses. Tree plantation is not just something that should be done; instead, it is a necessity, the urgent need of the hour. Planting of trees is especially important to protect our environment against air pollution and global warming. The drive was a huge success, empowering students with substantial knowledge.

## Tree Plantation Drive by DME Eco Club in association with NIRBHED Foundation (20.01.2020)

Considering the manifold benefits of trees, including that they release oxygen into the air, absorb unpleasant odors as well as harmful gases such as carbon dioxide, carbon monoxide and sulfur dioxide from the air and purify it, protect us from dangerous ultra-violet rays, provide us with food and the pivotal role played by trees in preventing soil erosion, maintaining ecological balance and most especially in lessening the effects of global warming.

DME Eco Club conducted this drive in association with NIRBHED Foundation an NGO working in Indrapuram Ghaziabad on 20th January 2020 in which the student members planted the saplings, watered the same and led a new way towards giving birth to a new plant. Tree plantation is not just something that should be done; instead, it is a necessity, the urgent need of the hour. Planting of trees is especially important to protect our environment against air pollution and global warming.

## Tree Plantation Drive by DME Eco Club in collaboration with BARCLAYS (28.02.2020)

Trees are the foremost source for producing the oxygen in environment, they helps to reduce the level of CO<sub>2</sub>. As we all know that the whole world is facing the problem of global warming and to recover from such problem planting the trees is become one of the most important aspects today. Considering the manifold of trees, Tree Plantation Programme was organized by Barclays in association with Delhi Metropolitan Education at Green Belt no. 2 Sector 62 Noida on 28th February, 2020. To maintain the ecological balance this Programme was organized with lot of sincerity and seriousness. The drive was a huge success with almost 100 volunteers participating with great enthusiast in it. Many students from Delhi Metropolitan Education also volunteered for the same in which the student members planted the saplings, watered the same, and led a new way towards giving birth to a new plant. Importance of tree plantation should be discussed to save our earth from destruction and the lives surviving on it. In this growing industrial and technological era, pollution has become a major problem. Many animals and birds are facing the threat of extinction due to the lack of their natural habitat.

## Tree Plantation Drive (23.08.18)

Keeping in view the occasion of 'World Environmental Health Day' celebrated every year, following the concept of "ONE STUDENT ONE TREE CAMPAIGN" DME decided to initiate the Tree Plantation Drive on 23rd August, 2018.

The objective of this event is to teach students, that, future mankind depends on the way we interact with our environment and the way we handover a healthy and resourceful environment to the future generation, also to express our concern towards the environment. This was a great initiative to make our atmosphere neat and clean. By tree plantation, we can develop a climax ecosystem free of greenhouse gases to reduce global warming, and also we can beautify the areas for scenic beauty. Students and faculty members were asked to reach towards the site at 2:30 p.m. The program started with chanting of slogan "Vriksh Lagao, Desh Bachao" "Don't be mean- keep it green etc." by the students which created a resonating sound in the air.

DME students shall continue participating in such events and drive in future as well and make it successful each time.
